I am a qualified and professional web developer with a strong knowledge of JavaScript and website design. I also have strong creative and analytical skills, and I am a team player with an eye for detail.

PROJECTS

3D PORTFOLIO WEBSITE

- Developed a 3D and fully responsive Portfolio Website using React JS, Tailwind CSS, Three JS and Framer Motion.
- Implemented a 3D island, project section, blog section, and 3D contact form.
- Ensured a seamless and engaging user experience through intuitive design.

PYTHON COMPILER

- Developed a browser-based Python compiler with real-time code execution using the Piston API, supporting standard input and output.
- Integrated CodeMirror for syntax-highlighted, auto-indented Python code editing in a responsive UI.
- Enabled secure and efficient backend-less execution of Python code directly in the browser without page reloads.

WEATHER APP

- Integrated real-time weather data using OpenWeather API with dynamic UI and location-based weather search functionality.
- Utilized Recharts for interactive data visualizations and Radix UI + Lucide for sleek, accessible interface components.
- Built a fully responsive, TypeScript-powered architecture to ensure performance, scalability, and type safety across all components.
